Warszawa, 05th of April 2020

Dear ISBA Members,

ISBA annual main event is a highly valued gathering of Shiseikan Budo teachers and students from all involved countries.

In the current times of pandemic, safety, support and hope have become most important. The short-term future is now unpredictable, regarding especially health and economy. Each and all of us need to concentrate our attention and energy on taking care of people, places and tasks, which we are responsible for.

Also, just a few days ago, Shiseikan informed us, that *"even if the coronavirus situation recovers before August somehow, Japanese delegation is not able to attend the seminar unfortunately"*.

Therefore, after considering the overall situation among ISBA Board members, our Consultants and Swiss Organizing Team, we have decided to postpone ISBA summer seminar in Fiesch until August 2021.

We believe, that both every individual and joint effort of the whole humanity will help to overcome and learn from the crisis. And the result will make us possible to meet again and exchange internationally, hopefully in next year, as the truly empathic community in a more cooperative world.

Best Regards,

Adam Radecki
